Gravel – Camel Sands

„Morocco“

Tour Info

26.02.2026-

21.03.2026

Hello dear motorcycle friends,

“Motorradtour Adventure – Facesinthewind” invites you to join a one-of-a-kind tour to Morocco. For spring 2026, we’ve planned three and a half weeks of intense motorcycle adventure with approx. 6,500 km of riding. We’ll take time to feel the country, visit several UNESCO World Heritage sites, and share an unforgettable experience together. (Maximum 8 participants).

Departure on February 26, 2026, at 08:00 from the Montabaur JET gas station. Additional meeting points will be announced.

The twisty fun begins right after we leave Montabaur. We’ll cross the Middle Rhine Valley, the Palatinate Forest, and the Black Forest, then continue through the Swiss Alps, past Lake Como, and across the Apennines to Genoa. We’ll spend two days on the ferry—plenty of time to complete the entry formalities onboard. After arrival, we’ll ride from Tanger Med along the coast to Tangier. The next day our tour begins in earnest. We’ll visit hotspots such as Meknès and Marrakesh, and we’ll get to know the country on quiet, partly unpaved roads. We’ll ride along the ocean, traverse the Anti-Atlas on somewhat more demanding gravel tracks, zigzag over the eight highest Atlas passes, head into the desert to Merzouga, and finally return via the Rif Mountains through Fès and Chefchaouen back to Tanger Med. From there we take the ferry to Genoa and continue home via Lake Maggiore and over the Alps.

Target Group:

Advanced / adventure riders—or those who want to become ADV riders—who want to let knobby tires really bite into gravel and sand from time to time...On tours like this there are essentially two limits: your personal limit as a rider, with all your experience and skills; and the limits set by the motorcycle you’re using. Following the principle that only those who know their abilities and their machine can truly master the system, we’ll practice using a travel enduro with luggage on both paved and unpaved surfaces during the tour. Depending on the group composition, we can extend—or shorten—the planned off-pavement sections.

We start as a group and finish the tour as a team.

Rider-Requirements:	Have we sparked your interest in a fantastic tour?

- Ability to handle a motorcycle safely on the road and in tight traffic. Breaking, clutch control, shifting, and situational awareness are not an issue for the rider.
- Ability to ride a motorcycle safely on uneven and unpaved (wet/dry) surfaces—loose rock, gravel tracks on flat terrain—and to ride standing for extended periods while keeping solid balance. (Will be practiced during the tour.)
- Team spirit.
- Technical understanding / knowledge of your own motorcycle.
- Ability to ride while standing on the pegs and execute tight 360° turns or figure-eight without putting a foot down.
- Comfortable with brisk cornering and riding mountain passes.
